PRESIDENT'S MESSAGE

DEAR OCCUPATIONAL THERAPY PROFESSIONALS,

The Occupational Therapy Association of California Annual Conference is back in Pasadena, California, in person, and I am so excited to have you join us again. We look forward to seeing everyone, networking and socializing with one another, learning from one another, and supporting the profession of occupational therapy here in California. This year's theme – Roots of Our Practice – references our profession's history, including our roots in mental health and the military and focus on occupation. We are proud to recognize service members and our profession's connection to those who have served as we honor the Veteran's Day weekend.

The last several years have been difficult for many of us as individuals and as a professional collective. We have been forced to change our ways of doing, disrupting habits, routines, and restorative occupations. As an Association, OTAC has had to adapt to meet members' needs, as well as the needs of the profession. This year's Conference is a celebration of the ongoing commitment each of us has toward occupational therapy.

Our advocacy efforts over the past several years have included a focus on recognizing and elevating the role of occupational therapy in working with people with mental health needs. This year's theme is intended to reflect that advocacy through the Conference educational opportunities while anchoring what we do firmly in occupation-focused practice. Dovetailing with last year's Mental Health Summit, we will again have another Mental Health Summit this year focused on professional advocacy and regulatory and practice trends. This year's theme also provides a backdrop for highlighting the work of occupational therapists and occupational therapy assistants in working with veterans and service members, as is reflected in the programmatic presentations and panels.

With "Roots of Our Profession" as our grounding theme, I am excited to welcome our Friday keynote presenter, Wendy B. Stav, PhD, OTR/L (MI), FAOTA, whose talk entitled "Our Relationship with Occupation" (about occupational revolution) will reflect her ongoing work of focusing on and measuring occupation-based interventions. We are also honored to have veteran and occupational therapy practitioner Major Erik S. Johnson, Retired, MS, OTR/L (TX), join us as our Sunday keynote speaker with his talk "After the Storm: OT Implications for Service Members After Discharge."

The program is packed with amazing professional development opportunities, and attendance at the Conference is an epic time to see one another in person, connect, laugh, support, brainstorm, and collaborate again. This Conference is also a time to celebrate the accomplishments of our colleagues through our Annual Awards celebration. Like last year, I am ecstatic to see one another again, and I am also so encouraged and inspired by our theme and the work that OTAC is committed to. Please join us at this year's Annual Conference & Innovation Expo and in our commitment to the profession. See you in November.

SCHOLARSHIP OPPORTUNITY

FOCUS ON THE FUTURE FUNDS

It is with great honor that OTAC carries on with the Susan J. Harris Focus on the Future Legacy Fund established by Therapy Specialists, a HealthPRO-Heritage Company in collaboration with OTAC. Harris was a long-time active supporter, valued friend, and member of OTAC. In 2020, OTAC's Entrepreneur Award was renamed in her honor as the Susan J. Harris Occupational Therapy Entrepreneur Award. She was also an awardee of OTAC's Award of Excellence and Lifetime Achievement Award. Harris had founded Therapy Specialists more than 41 years ago and grew it into a successful practice.

Susan J. Harris

With this Legacy Fund, OTAC provides support to the profession in three primary areas: entrepreneurialism and innovation, advocacy, and a leadership pathway for practitioners of diverse backgrounds. At the 2023 Annual Conference we are bringing to you 12 sessions under the Advocacy/Leadership/Management/Private Practice Track. In addition, we are offering the OTAC Leadership Institute Mentees & Mentors: Take the Journey Together. See Session 38. [Apply here](#). The Legacy Fund also includes the opportunity for two students of diverse backgrounds (students of color, students with disabilities, students within the LGBTQ+ community) to apply for a scholarship to the Annual Conference to attend the sessions in the Track mentioned above, as well as to attend the OTAC Board of Directors and Committee Chairs meeting on the Thursday of Conference. This scholarship is intended to support students in their professional journey through exposure to occupational therapy leadership and professional development. CHAIRS' MESSAGE

Dear Occupational Therapy Practitioners,
Educators, Students, Colleagues,
and Friends,

On behalf of the Occupational Therapy Association of California (OTAC) and the 2023 OTAC Annual Conference & Innovation Expo Committee, we are excited to invite you to join us for the 47th Annual Conference!

This year's Conference theme is **Celebrating the RoOTs of Our PrACTice, emphasizing OTAC!** From the historical beginnings of our profession to today's emerging practice areas, this inspiring theme reflects the expanded continuum of professional development.

Occupational therapy has been grounded in the value of participation in purposeful and meaningful therapeutic occupations to promote health and the balance of physical, mental, and social well-being. The growth and advancement of our profession encompasses a range of practice areas to benefit all persons, groups, and populations. As practitioners, educators, or students, we can continue to enrich our knowledge and cultivate evidence-based occupational therapy interventions for those who receive our valuable services.

We are honored to have two amazing Keynote presenters, Wendy B. Stav, PhD, OTR/L (MI), FAOTA, from Missouri, and Major Erik S. Johnson, Retired, MS, OTR/L (TX), from Texas. Stav is the St. Louis University OT Department chair and will present her Keynote Address, "Our Relationship with Occupation" (about occupational revolution) on Friday, exploring our profession's history and the ebb and flow of our collective relationship with occupation. Major Johnson is an OT war veteran presenting his Keynote Address on Sunday titled "After the Storm: OT Implications for Service Members After Discharge," providing insight into the complex physical, cognitive, and psychosocial struggles veterans face once discharged from service. We are grateful and delighted to have Stav and Johnson join us for the 2023 OTAC Annual Conference & Innovation Expo!

We are excited to offer the Annual Conference & Innovation Expo in person at the Hilton Pasadena! We will be **Celebrating the RoOTs of Our PrACTice** by participating in professional development, nurturing our future practitioners, and engaging in networking opportunities.

The high caliber, peer-reviewed Conference presentations and poster sessions will reinforce your commitment to the uniqueness of the roles of occupational therapy professionals providing innovative approaches to support and promote occupational engagement for everyone we serve. The resolve to increase the diversity and inclusiveness of the occupational therapy profession continues, and the OTAC Annual Conference & Innovation Expo is one opportunity to pursue that goal.

We look forward to seeing everyone in person at the OTAC Annual Conference & Innovation Expo in Pasadena!

Our profession's deep roots in occupation are indeed something to be celebrated. But how well are they being tended to? Together, let's explore how we each can and must contribute to the propagation of our roots and unleash the power of occupation in ourselves and for our clients. This session will invite you to reflect on your past and future practice and offer insights harvested from OT scholars, researchers, educators, practitioners, students, and patients that have cultivated my "occupassion" of being an OT.

HONORED LECTURER - LISA DESHAIES, OTR/L, CHT

Nourishing and Flourishing Our Roots (.5 PDUs)

Our profession's deep roots in occupation are indeed something to be celebrated. But how well are they being tended to? Are we leaving this to others or are we actively engaged in protecting and fortifying them? Together, let's explore how we each can and must contribute to the propagation of our roots and unleash the power of occupation in ourselves and for our clients. This session will invite you to reflect on your past and future practice and offer insights harvested from OT scholars, researchers, educators, practitioners, students, and patients that have cultivated my "occupassion" of being an OT.

Lisa Deshaies,
OTR/L, CHT

Lisa Deshaies, OTR/L, CHT, is a 1986 graduate of the University of New Hampshire who headed west to California with a plan to train and work at Rancho Los Amigos National Rehabilitation Center for a couple of years. 36 years later, she continues there as a clinical instructor for outpatient occupational therapy services. Deshaies has specialized in complex fractures, burns, amputations, arthritis, and other upper limb orthopedic conditions, obtaining her Certified Hand Therapist (CHT) credential in 1995. She has taught "Principles of Hand Therapy" as adjunct clinical faculty for the Chan Division of Occupational Science and Occupational Therapy at the University of Southern California for over 20 years. Deshaies has published in OT and hand therapy textbooks and has presented locally and nationally on topics related to hand therapy and occupation-based care. Outside of work, she values her time spent at the beach, on the water, exploring a trail, traveling, and fanatically rooting for her beloved New England sports teams.

SUPPORTING OUR FUTURE LEADERS

For many years, OTAC has offered student members a deep discount on registration fees for Annual Conference as a component of the OTAC Board of Directors' goal to support the future leaders of the profession and the Association. The Annual Conference affords students an opportunity to network with other students from around the state, network with practitioners for mentorship opportunities, learn about clinical applications outside of the school and fieldwork settings, meet with employment recruiters in the Expo, and be energized and excited about their profession and the Association. The Student Track selections are a collaboration of the OTAC Student Leadership Committee, which includes the Committee's Student Delegates (two students from each OT/OTA program), and the OTAC Conference Committee.

Students are also encouraged to attend Pre-Conference Institute sessions on Thursday. While there isn't a discount, these sessions often offer unique content as well as exposure to alternative and emerging practice methods, and a discounted rate for members.
